The Italian Minister and Madame and Miss de Luca have arrived at the German Legation, and the German Minister, with Madame and Miss de Luca and the German Secretary of Legation have paid a visit to th Western Hills. Sir Robert's delightful Wednesday garden parties are still hold, and are likely to be continued during October. The Band has been resuscitated, new recruits having been drawn from Tientain. The new amateur Manchu band is making commendable progress and during the incoming winter, it is hoped, wil be able to discourse some fine music. A new Secretary to the Russian Legation has arrived Mr. Sunding of the British Consular service has gone to Shanghai, and will proceed later to Amov The Italians have bought a new property for a Legation, a little East of the American Methodist Mission. M. and Madame Piry and family are now settled here having come from Korea, and several additions have lately been made to the Customs staff. Large consignments of the new Science Primers in Chinese are being forwarded to Tientsin, Shanghai, Hankow, Focohow, and Canton. The M.A. nine days' examination of candidates is over, and now the three high officials appointed to conduct the examination have a month in close confinement within the Hall, in which to scrutinize the essays and decide on the successful candidates some 300 out of 17,000. It is reported that sixteen deaths took place during the examinations. We have not heard the causes of death, but we may suppose some were. cases of cholers, which has been somewhat prevalent of late, it is said, in Tientsin and here among the Chinese; others of suicides from chagrin, etc., and probably some from opium. The

approaching completion. One of the two Russian printers engaged on the composition of the new Russian-Chinese dictionary at the T'ung Wên College died lately of cholers. The usual visitors from Tientsin and Shanghai representing well-known firms there, are either here or shortly expected. The arrival of Kelly and Welsh's representative is a pleasant surprise to us; we feel for the moment transported to Shanghai, when we visit the stores and view their display of goods. The best things, however, are usually picked up at Tiontsin and Chefoo, as the expensive transport from Tientsin makes every one desirous of parting with as much as possible at these ports. New quarters have been bought for the German students, adjoining the Eastern Cathedral. Our doctors and other scienvessel. returned from the Hills.-N. C. Daily News. Correspondent. 13th October. The Seventh Prince has to vacate his palace. which was the birth-place of the Emperor, and Tls. 100,000 have been granted him to prepare another residence, considerably nearer the Imperial Palace than his present one; and the occupant, who is ousted to make room for the Prince, receives Tls. 10,000 to repair his new residence. By the traditions of the dynasty the house where an Emperor was born can never be woollens, repeals the tobacco tar, and reduces inhabited, and the palace vacated by the Prince will probably therefore be dedicated to religious uses. The well-known Lama temple, near the north-west corner of the city, was converted to its present use in consequence of the building

having been the birth-place of an Emperor. The sporting community are preparing a treat for their friends in the shape of a "Scratch" Race Meeting, to take place on Saturday, the 13th, open to all ponies "not intended to run at the Tientain Autumn Meeting." There is to be a three dellar tiffin, which though not very prominent on the programme will doubtless constitute a principal part of the proceedings, and which are set down on the list. There are two permanent "stores" in Peking one under the protection of the German and the other of the French Legation, but they ap-

pear to leave something to be desired, and the question is often asked why some more pioneers of commerce do not ecoupy this field. Of course Peking is by treaty closed to foreign trade, but a very large trade is done nevertheless, not only in foreign imported articles but in Chinese manufactures, such as porcellain, cloisonné, em-Emperor Francis Joseph, supposing that firing several hundreds of thousands of table annually, Inchana, Ger. str., Usasment, Wieler & Co. had ceased, proceeded to inspect the target, and and agente come from the great houses in Paris John M.
